

Group Name: Photographing on a Light Box

Facilitator: Jim Turner

Group Size: 6

Skill Level/Other Requirements: Good basic knowledge of your camera and Photoshop, understanding of layers and blending modes in PS will be assumed. There may not be time to explain some post-processing techniques in detail.

Location: 10207 Lorain Ave., Silver Spring MD 20901 (my place). The stairway down to our lower level is could be a bit challenging for some – there is a right angle turn and no banister.

Equipment Needed: none

Days/Dates/Times: TBD

Number of Sessions/Frequency: one

Brief Description of Content/Approach: I will show how you can build a simple, inexpensive light box to illuminate objects (leaves, flowers, etc.) from below, and demonstrate how to take pictures using it along with some dos and don'ts. I will also discuss some possible ways to process your images that go beyond standard Lightroom and Photoshop post-processing.
