

ARTIFICIAL LIGHTING KNOWLEDGE AND TECHNIQUES

Group Name: Exploring artificial Light sources and their uses

Facilitator(s): Joel Hoffman

Group Size: 6-8 people

Skill Level/Other Requirements: Beginners through advanced members can participate

Location(s): The group can meet at my house, 9 Thorburn Road, Gaithersburg, MD 20878

Days/Dates/Times: Starting October, second Thursday of the month from 7:30 to 9:00 p.m. or at such other time as the group can agree upon.

Number of Sessions/Frequency: 8 sessions

Equipment Needed: I believe I have all the lighting equipment to be used in the sessions. I might need HDMI cable but not sure at this time

Brief Description of Content/Approach: This group will focus its attention on the use of on and off camera flash, radio and infra-red transmitters use of hot lights, monolights, flash heads and power packs, light modifiers and the use of light meters. The general purpose of the group will be to familiarize the participants with the various types of equipment that can be used to create great light with artificial light and how to get the most out of on and off camera flash.
